

DO COOL THINGS THAT MATTER

## Google Updates for Career Services

December 2013

Greetings Career Services! Google's **University Programmes Team** (Sales and General Administration - Europe, Middle East and Africa) are delighted to bring you this newsletter, which will give you a brief insight into **our team**, the **general hiring process** and **careers at Google**.

The **University Programmes Team** strives to build mutually beneficial relationships between Google, universities, diversity organisations and students. Our team focuses solely on **non-engineering** outreach activities. We manage Google's on-campus activities, lead university recruiting efforts, and manage the Google intern programme. We also create programmes to encourage students to interact with Google. These programmes also provide scholarship opportunities and support to historically underrepresented student groups, therefore inspiring them to excel in their studies and to pursue opportunities in the online industry afterwards.

**'Tis the season!** We would like to wish you and yours a very **happy holiday** and a **prosperous new year**. May your season be filled with cheer, happiness and some Google applications from your students! It's been an exciting year on campus; we're looking forward to working with you in 2014.

Kind Regards,

The Google EMEA University Programmes Team - [www.google.com/students/emea](http://www.google.com/students/emea)

**Cool things.** In 2013, Google celebrated ten years in Ireland. Check out Google's tribute to Ireland: <http://goo.gl/rwslSl>.

**Seasonal fact!** In the Grand Canal building in **Google Dublin**, we have a custom piece of carpet over 60 metres long which has the sheet music for The Pogues' 'Fairytale of New York' printed on it.

**Focus on the user and all else will follow.** From the beginning, Google established the ten things we know to be true, one of those being our focus on the user. <http://www.google.com/about/company/philosophy/>. This goal extends to providing accessible information to everyone. Meet Tammie, who is using Google Glass to capture and share the experiences that she's always wanted to - <http://goo.gl/yyaSfz>.

## Our Programmes.

**Google Student Ambassador Programme (GSA).** A fantastic opportunity for students to act as liaisons between Google and their universities. More information can be found at this link: <http://www.google.ie/edu/programs/student-ambassador-program/>

**AdCamp.** AdCamp includes a collaborative curriculum focused on Google's advertising sales and marketing operations. More information here: <http://www.google.ie/edu/programs/adcamp/>.

**Building Opportunities for Leadership and Development (BOLD).** The programme is designed to provide exposure into the online industry for students who are historically under-represented in this field. More information here: <http://goo.gl/kli7LK>.

**Google Online Marketing Challenge (GOMC).** The Google Online Marketing Challenge is an exciting opportunity for students to experience and create online marketing campaigns using Google AdWords and Google+. More information here: [www.google.com/onlinechallenge](http://www.google.com/onlinechallenge).
