SPECIFIC DATA ON THE SUBJECT**Framework of the subject****Pre-requisites**

None

Contribution of the degree to the professional profile

The course introduces students to the general principles of insolvency and cross-border restructuring with a particular focus on the tools available within the EU. It intends to provide an understanding of the interest of the various stakeholders involved in cross-border restructurings with a view to encourage identification

and critical analysis of the recovery and protection strategies which may be available under different jurisdictions.
