These two lessons will be both theoretical (the students will learn the basics of the most usual equity and debt capital market transactions -see the content above-) and practical (the students will discuss in class the various case studies relating to the transaction materials provided, responding to the specific questions that will be posed by the professor ahead of the class).

AREA 3: DOMESTIC AND CROSS-BORDER TAKE-OVER BIDS IN THE EU (2 hours)

This lesson will be both theoretical (the students will learn the basics about takeover bids regulation in the EU –see the content above-) and practical (the students will resolve and discuss in class the case study relating to the transaction materials provided, responding to the specific questions that will be posed by the professor ahead of the class).

Students must submit by the last session their responses in writing to the specific case study for the purposes of their continuous evaluation assessment.
