

Comillas Philosophers' Circle

A small promotion group has been in charge for some months of taking the initial steps to carry the **Comillas Philosophers' Circle** project forward. This promotion group is composed of the following colleagues: **Juan Benavides Delgado, Ricardo Pinilla Burgos, Asunción Tirado Lara and José Luis Fernández Fernández.**

With the agreement of Comillas Alumni Director, **Carmen Jiménez** joins the group in order to establish and ensure the connection of the **Comillas Philosophers' Circle** in the widest framework of alumni associations of the university.

Belonging to the **Comillas Philosophers' Circle** is completely voluntary and free of charge. No fee is required and members are only expected to cooperate in good faith and with sound judgement in the achievement of the objectives that give meaning to the project.

Objectives

The **Comillas Philosophers' Circle** are set up as a stable platform and meeting point for all those Comillas Alumni who, somehow, in any event or period of time, were enrolled students of the degree in Philosophy at any of its designations or seats.

The aims we seek with the institutionalisation of the **Comillas Philosophers' Circle** are the following ten points:

1. Help each other
2. Get to know each other and strengthen personal bonds
3. Sharing professional experiences
4. Arrange potential research projects or any other type of joint work
5. Enhance synergies and cooperation among members of the Circle
6. Coordinate and strengthen the sectoral network of our degree in the framework of the Comillas Alumni Office
7. Integrate new students in the tradition of thinking of what Philosophy in Comillas means
8. Have a presence in the public debate on relevant philosophical and practical issues
9. Debate relevant monographic issues from a theoretical and philosophical perspective
10. Draft brief comments about discussed subjects and disseminate them on the Web through a series of booklets that will be published under the heading Keys and Proposals by the Chair of Economic and Business Ethics
